Dear Doug,

On behalf of Rogue Valley Women's Acapella Chorus, I am writing to thank you for creating and distributing the vocal learning system "Sassy" to our chorus. We have found the system to be very helpful in learning our new music. We are finding that we are learning faster when we have the part specific music to follow as we learn.

We have had a few problems implementing the system but your technical service has been great. We would highly recommend this method of learning to other choruses.

Yours in harmony,

Claudia Wagner
